## GREETINGS

We extend to our customers, our thanks for their past business and express the hope that they will approve of this edition of Distinctive Glads which, we believe, includes the best selections which we have ever presented for their consideration.

In reviewing our list, you will note that a number of newer varieties have been added to the list and that some of the older ones are no longer included. This is due to our effort to make available those which we consider "the best of the old and the new." The passing of old friends is usually due to their being replaced by better varieties in the same color class. However, their passing is sometimes due to poor habits of propagation or to the fact that some weakness has developed in the variety.

## LOCATION

All mail should be sent to New Cumberland, Pa. However, we are growing our bulbs on our farm located on Route 441 about two miles south of Middletown, Pa. Those wishing to visit our fields during the blooming season should call at the farm. The greatest number of different varieties will probably be in bloom during the period from August 15 to September 1.

## JOIN A GLADIOLUS SOCIETY

Persons interested in the growing of gladiolus should join a society. The benefits and information received are worth much more than the dues. Some of the societies issue regular publications such as bulletins and yearbooks. Others conduct trial gardens and issue reports on the varieties grown. They all conduct shows.

## GLADIOLUS SHOWS

Plan your vacation so as to permit you to attend and exhibit at as many gladiolus shows as possible. Most show dates have not been announced as this catalog is going to press. However, The Eastern International Show will be held August 17 and August 18 at Binghamton, New York, and The Keystone State Show will be held August 7 and August 8, probably at either Lebanon or Lancaster, Penna.

## CLASSIFICATION

With our description of each variety, we have included a number in parenthesis which designates the official classification of the variety for show purposes. In accordance with the plans used by the New England Gladiolus Society and the North American Gladiolus Council, the first digit of the number indicates the size classification and the second and third digits indicate the color classification.

## VARIETIES

In our opinion, each variety listed in our catalog has merit and is worthy of your consideration. As to whether you will like a particular variety may depend on your personal preferences and the purpose for which you wish to use the flowers. Remember that the price is not an indication of the quality of the variety. Newer kinds must of necessity be higher in price because of scarcity of stock. We suggest that beginners start with tried and true varieties in order to avoid disappointment. Growers of more experience and fanciers will want to try the newer ones.

## OUR GUARANTEE

All our stock is guaranteed to be healthy, vigorous, free from thrips, and true to name. **You must be satisfied.** If any stock is unsatisfactory, tell us and we will try to satisfy you. If you like our bulbs and our service, tell your friends.

## PLEASE READ CAREFULLY

All quotations are subject to previous sale. We urge that you place your orders early so that you may not be disappointed. Each year we are unable to fill late orders for a number of varieties. **No orders for bulblets will be accepted after April 1** as we expect to be planting bulblet stock by that time. **We do not care to accept orders for bulbs after May 1, except for mixtures,** as many varieties will be planted by that time. Orders are segregated as soon as possible after being received but will not be shipped until after danger of freezing is past, unless you request otherwise. However, bulbs can be sent any time desired. No substitutions will be made without your permission. If we are out of a variety you order, your money will be refunded unless you give us permission to make a substitution in size or variety. Cultural directions will be included with all orders.

Orders from the retail list amounting to \$2.00 or more will be prepaid to points in the United States. We prefer not to receive orders amounting to less than \$2.00. If such orders are sent, please include a fee of 15 cents to cover the cost of postage and packing. Prices as indicated in the quantity list are not prepaid, but are F. O. B. Middletown, Pennsylvania. If you wish to order part from the retail list and part from the quantity list, we will send the order transportation collect and will include extras or overcounts to make up for the transportation on the retail items. A discount of 5% in other bulbs will be allowed on cash orders from the retail list amounting to from \$3.00 to \$10.00. On such orders amounting to more than \$10.00 a discount of 10% in other bulbs will be allowed. These discounts do not apply to "collections," to items marked "no discount" nor to orders from the quantity price list. We also include worthwhile extras with retail orders. The value of the extras will be in proportion to the size of the order. Suggest varieties desired as extras. If we have sufficient stock we will comply with your request. However, new introductions and varieties marked "no discount" cannot be used as extras.

Where a variety is listed at 2 for 20 cents or 2 for 25 cents, etc., please do not order a smaller number at a lower price. Five bulbs will be sold at one-half the price of ten, but no single item will be accepted for less than 20 cents except when so quoted. Where no 10 price is indicated, it may be found by multiplying the price of a single bulb by 8.

Where bulblets are sold by the packet, 25 to 50 or more will be included in each packet. We will give good value.

Do not ask for special quotations unless you have a large order. Our prices are very low for the high quality bulbs offered. However, we are glad to furnish special quotations to jobbers, growers, and others purchasing in large quantities.

All bulbs listed as large size are 1¼ inches and up, mostly 1½ inches and up, in diameter. Medium size bulbs are ¾ to 1¼ inches in diameter. Small bulbs are ¼ to ¾ inches in diameter. For the finest blooms, large bulbs are best. Medium size bulbs of most varieties will give nice cut flowers, but the spikes are not as long as from large bulbs. Although small bulbs of many varieties will bloom, others will not. The blooms from small bulbs will be noticeably smaller in size. Bulblets seldom bloom and are often difficult or impossible to germinate. We do not recommend them except to experienced growers.

## 1948 INTRODUCTIONS

From C. F. and D. J. Kuhn.

ARIA (Kuhn). (Nadia x Cardinal). (242) A small flowered variety that performs like a grand champion. Deep pink with light cream throat and mid-ribs. Opens 8 three-inch florets on a 20 bud spike with 6 to 7 showing color. Strong, straight grower. Good propagator. Early. Winner of many awards as a seedling, including the American Home Achievement Award in 1947 at the Michigan State show.

Price—Large \$3.00, Medium \$3.00, Small \$2.00. Bulblets, 1 for \$.30, 10 for \$2.40, 100 for \$20.00. (No discount.)

From Marion Rich.

BLACK CHERRY (Rich). [(Midnight Red x Arabella) x Rich Red]. (554) Giant black red which grows 50 inches or more tall. Opens 9 giant blooms on a spike with up to 20 buds. Does not burn. Prolific producer of bulblets which germinate. Has won many awards as a seedling.

Price—Any size bulb, \$4.00 each. Bulblets 1 for \$.50, 10 for \$4.00. (No discount.)

From Elmer Gove.

EVANGELINE (Palmer). A beautiful light rose pink with creamy yellow throat. This heavily ruffled variety from a cross of Greta Garbo and Elizabeth the Queen has won numerous awards as a seedling shown by Clarence Fortnam. Said to be a very tall variety which grows very strong from bulblets. Opens up to 10 or 11 large blooms on a spike carrying up to 19 buds. Usually has good placement but there will be an occasional misplaced floret.

Price—Any size bulb, \$10.00 each. No bulblets sold this year. (No discount.)

From Byron Kadel.

SPRING SONG (Kadel). (Red Penny x Libelle). (466) Recommended to those looking for a large flowered early lavender gladiolus for the cut flower trade. Large, ruffled, medium shade of lavender with deeper marking. Carries 16 to 20 buds on a 27 inch flower head. Grows 50 inches tall. A planting of uniform size bulbs is "cut-out" in a period of 8 days after coming in bloom. Blooming season about the same as Red Penny. Like that variety, it is a strong, healthy grower which frequently blooms from bulblets.

Price—Any size bulb, \$2.00 each, 10 for \$16.00. Bulblets, 12 may be purchased for \$2.00 with each bulb. Bulblets will not be sold separately this year. (No discount.)
